

PUBLICATION REVIEW FOR PROJECTS (FROM REGION I)

FOR PUBLICATIONS

EPA encourages the publication of the results of its assistance programs. However, before an assistance recipient may publish these results as an EPA product, it must comply with EPA's publication review process. The following steps must be completed:

1. The recipient submits three copies of the material it intends to publish to the EPA Project Officer.
2. EPA reviews the material and provides the recipient in writing, with any changes it wishes to suggest.
3. The recipient prepares a revised draft. In so doing, the recipient should make every effort to accommodate the suggestions provided by EPA review.
4. If EPA agrees that the material is appropriate for publication as an EPA document, the recipient must include the following statement:

The information in this document has been funded wholly or in part by the United States Environmental Protection Agency under assistance agreement (**number**) to (**recipient**). It has been subjected to the Agency's publications review process and has been approved for publication as an EPA document. Mention of trade names or commercial products does not constitute endorsement or recommendation of use.

5. If EPA does not agree that the material is appropriate as an EPA document, the recipient may publish the material for its own use if it includes with the published material the following statement:

Although the information in this document has been funded wholly or in part by the United States Environmental Protection Agency under assistance agreement (**number**) to (**recipient**), it may not necessarily reflect the views of the Agency and no official endorsement should be inferred.

6. EPA also encourages recipients to publish reports independently in refereed journals at any time. (A refereed journal is one that subjects material to review by a panel of experts before publication.) In order to do so, recipients must meet the following requirements:
 1. Submit a copy of the material to be published to the EPA Project Officer at the time it is submitted to the journal for publication.
 2. After publication, submit three copies of the published material to the EPA Project Officer.

3. Include the following statement in the published material:
Although the information in this document has been funded wholly or in part by the United States Environmental Protection Agency under assistance agreement **(number)** to **(recipient)**, it has not been subjected to the Agency's publication review process and therefore, may not reflect the views of the Agency and no official endorsement should be inferred.
